RG104 E-1 Box 122 Aug-Dec 1880

Mint of the United States at Philadelphia,
MELTING AND REFINING DEPARTMENT,

Philadelphia, 20th Sept. 1880

Sir,

Your favor of the 16th Inst., covering instructions from the Director of the Mint to make separate Reports for July and August, last past, of the Gross and Standard Weights of ounces, of Gold and Silver refined, and the costs of manufacture individualized, was duly received. I infer these items to be the ones called for, from the Printed form sent with your note of Instructions. We have been occupied with this work for the last two days (17th and 18th), and have made fair progress in it, but it may require a few days more to complete it. Having no special clerical force in my Department, we can only perform such work intermediate to our usual special occupations.

Very Respectfully
J. C. Booth
